BETTER IF YOU
WEAR FACE
SHIELD.**

BULLET Series

Headgear is sold separately for versatility purposes

Task specific replaceable windows

Manufactured in an ISO9001 facility

Molded "Bullet" design

Clear

Gray

IR5

Gold IR5

***HEAD GEAR IS SOLD SEPARATELY**

The CanaSafe ONGARD™ face shield system provides that much sought after “wrap-around” design that offers form fitting security, robust construction and flexible adjustment. Clear polycarbonate offers excellent visibility for general purpose use, gray tint reduces glare in outdoor environments, IR shade 5 windows are used in furnace and metal working applications (NOT FOR ELECTRIC ARC WELDING) whilst gold coated versions excel in reflecting radiant heat and absorbing harmful Infrared radiation. The ongard crown protector has full tilt function, Twizloc™ sizing and Swivel™ comfort zone whilst the molded BULLET™ windows offer low profile fit with uncompromising coverage.

REDUCE COSTS BY CHANGING OUT ONLY THE WINDOW IN YOUR FACESHIELD VERSUS REPLACING THE ENTIRE UNIT.
